*Claim Rejections - 35 USC § 103*

1. Claim 1 is rejected under 35 U.S.C. 103(a) as being unpatentable over Duggan (4281664).

Duggan teaches sending EGM signals over telephone lines, see col. 1. See also col. 7. To receive first and second EGM signals is considered to be obvious in that the device of Duggan can handle at least two signals, and that more patient information is obtained when two signals are sent, thus helping with the diagnosis of the patient's condition.

2. Claims 2-7 are rejected under 35 U.S.C. 103(a) as being unpatentable over Duggan in view of Cox (6763269).

Cox teaches the ability to transmit sensor derived signals, as well as stimulus signals, to a remote location. To have this ability with the device of Duggan would have been obvious since such would provide a more complete picture of the patient's condition than just the use of the EGM.

*Allowable Subject Matter*

3. Claims 9-25 are allowed.
4. Claim 8 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Since the previous office action was a non-final action, the present action is made final.

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

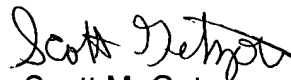

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
